Outcome based education method has been followed. The institution has a meticulously organized and well planned teaching, learning and evaluation schedule/Almanac, integrated with the institutional vision.

The Teaching –Learning Process is functioned through four stages: Planning, Implementation, Monitoring and Feedback.

STAGE - I: PLANNING

1. **College Level planning:** At the end of each academic year, the management holds consultations with the faculty/HoDs/Deans/Director and the examination Department to plan the Almanac for the forthcoming academic year.
2. **Department Level Planning:** Department Heads allot the workload to faculty in consultation with the concerned faculty and the Principal. Department wise timetables are prepared well in advance and displayed on the notice boards. Each department has a well-defined Annual Planner, Semester Planner and Monthly Planner to ensure systematic functioning of the Academic Year.
3. **Individual Level Planning:** Individually prepared Unit Planners reflect the time frame required for the completion of each unit with a mention of Teaching Methodologies/ References and methods of Evaluation.

STAGE II: IMPLEMENTATION

1. Communication

1. **At College Level:** The Academic Calendar prepared is printed in the College Hand-Book and displayed in the College Website. The hand-book is made available to each Faculty and Student at the beginning of the Academic Year.
2. **At Department Level:**
 - **Entry Level Tests:**
An Entry level test is conducted to all the first year students immediately after the commencement of the classes. Special attention is paid to the under achievers who secure less than 40% in the entry level test.
 - **Bridge Course:**
A Bridge course is conducted to all those students who come from different streams and different boards to facilitate the gap in the existing knowledge of the student, to refresh and strengthen core knowledge in the domain of the subject and pave way for conceptual learning.
- The Course outlines and the course schedules are drawn well ahead of the Course Commencement. The course outlines are communicated to the Students by the course Teacher in the introductory classes

Quality enhancement and sustenance in teaching learning process is achieved through:

- All the Departments adopted a paradigm shift in teaching from purely chalk and talk methods to a judicious mix of lecture method with ICT backed teaching, interactive and participatory approach thus creating an interest and a feeling of responsibility in learner to make learning a process of acquiring knowledge.
- Student centered methods are an integral part of the pedagogy adopted by the faculty. The institution has made a conscious effort to shift from the traditional teacher –centric approach to a student-centric one.
- Technology aided teaching strategies with differentiated techniques for slow learners, advanced learners and differently abled learners.

- Innovative teaching methodologies like Management games, Role - Play, Case Study, Group Discussions, Article / Film / Book Reviews, Debates, Quizzes etc. are adopted.
- Experiential learning (real time applications from simulations to projects/field works/surveys/industrial visits/Outdoor shooting/campus radio), participative learning and problem-solving methodologies are used for enhancing learning experiences.
- Going beyond the classroom teaching, multi-dimensional learning experiences are provided through industrial visits, outdoor shooting, editorials, exhibitions, guest lectures/seminars/workshops, etc
- Instilling and nurturing creativity and scientific temper among the learners through Creative Assignments, Research paper presentation, Academic Club Activities, celebrations of science day, statistics day, National education day etc. and organizing Exhibitions.

7.3 Give two Best Practices of the institution

1. Curriculum to cater to diverse needs and enhanced career opportunities
2. Community-based learning

I. BEST PRACTICE - I

1. TITLE: Curriculum to cater to diverse needs and enhanced career opportunities

2. The Context

In today's complex and competitive academic environment in higher education, professional approaches and best practices alone can act as catalysts for quality improvements in the system as a whole. An educational endeavour to be purposeful must lead to the ultimate goals and aspirations of the graduates. The quality of curriculum and the human infrastructure would make a quantum difference in the quality of graduates, which is the outcome of such inputs. St. Joseph's is dedicated to provide distinct environment of excellence in education with humane values and social commitment to the younger generation. St Joseph's college owes its purpose, genesis & progress to its patron – St. Joseph. The aim of St. Joseph's college is to mould leaders in all walks of life, to help them acquire the qualities of discipline, communicative ability and competitive spirit and to equip them with global competencies so that they could face the changing scenario successfully. In response to the current realities and emerging trends, the college introduced Choice Based Credit System (CBCS) in 2015. The vision to create distinct environment of excellence in education has led the college to explore the process of curriculum enrichment and enhancement with the objectives of equipping the students with graduate attributes along with inculcating the right values and skills for their employability and wholesome living. The employers expect from the graduates to make value addition to the organization in terms of knowledge, skills and competencies for problem solving. This can only happen with reforms in the curriculum to make it socially, economically and technologically relevant.

3. The Objectives

- To develop the curriculum with student focus and serves all students appropriately and adequately by introducing a new course/program, and/or modification of existing courses/programs
- To ensure the proposed curriculum meets the mission of the college

- To ensure proposed curriculum meets compliance and curricular standards and the market needs for enhanced employability.
- To provide adequate flexibility in the choice of subjects to the students

4. The Practice

- The college sought Autonomy in the year 2010 and was granted Autonomous status in the year 2011.
- To maintain an active interface with the counterpart from education and industries and other organizations providing employment, the college collected and analysed all the feedback from the stakeholders to identify the lacunae in the system as well as the demands from the environment for the graduates. After such a process of need analysis, the Board of studies in the respective departments made further consultations with experts to update and restructure the curriculum to make the curriculum relevant for the students and the society.
- The following new courses were introduced after autonomy to enrich the curriculum and enhance the employability.

II. BEST PRACTICE - II

Title of the practice: Community-based learning

1. The Context

The community-based learning combines traditional classroom instruction with community-service to enhance the learning of the students and civic participation. The college's focus for community improvement and engagement connects academic program with community service so that students and faculty can forge linkage between theory and practice, between knowledge and action and between the resources of institution and the community development. The practices focus on instilling values among students as exhorted by Swami Vivekananda, cultivating sensitivity among students towards education of the poor children, issues of social medicine, tribal education and development, care for destitute women prisoners and the elderly, blood donation for common good, insurance for deprived sections, the challenge of spreading literacy to one and all, efforts at preserving ethno-medicinal biodiversity and treasured attributes of tribal life, way to live a good life even while keeping within meagre means, and some environmental issues of current interest.

2. Objectives of the Practice:

- To engage community to create practice closer ties between institution of higher education and communities they serve with the result to deepen the quality of learning and discovery

- Inculcating the “Spirit of Service” among the students.
- Encouraging their “Social Attitude”.
- To make them aware their “Social Responsibility” through NSS, YRC & JSR activities
- To empower the women and make them more confident through Women Empowerment Cell

3. The Practice:

St. Joseph’s celebrated its JSR (Josephite Social Responsibility) Day on 27th February 2016. This has been a legacy at St. Joseph’s as the faculty and students sensitize on their social responsibilities and citizenship roles through participation in JSR Activity by visiting Home for street children, Rescue Centers, Orphanages, Home for the aged and destitute, mentally and physically challenged, Blind School etc. All the students of both UG & PG actively participated in the social service activity and came forward with great enthusiasm and concern making them to contribute in cash around 3.5 lakh.

Various Women Empowerment activities, National Social Service activities, Josephites Social Responsibility activities and Youth Red Cross activities are conducted. For details Ref. 3.25.

4. Obstacles faced if any and strategies adopted to overcome them

- There are always financial constraints.
- These are sought to be if any and overcome with the help of various clubs and societies of the city
- lack of extensive awareness programs to overcome them

5. Impact of Practice / Evidence of Success

- The practice has made an impact on community, students, and teachers.
- The voluntary blood donation camps have resulted in great impact on the students.
- The impact is also apparent on personality development, moral education and on civic responsibility and is reflected in enhanced sense of the responsibility among the students towards the college. It has also created a sense of managerial ability among the students for organizing such type of events.
- In the present-day society, the emotional bond between parents and practice the children seems weakening for various reasons, giving way to individualism among children.
- While for youngsters, their perception of home as a cherished place to go back to has been shattered before their very eyes, for the old, indifference by family members has assumed menacing proportions. In this context, this practice has certainly made an impact. It has extended a helping hand to the aged citizens of the local and surrounding areas, and has also infused a sense of responsibility and respect amongst the students towards the aged people. The HEIs can awaken the students to realize their responsibility towards the senior citizens.

6. Resources

- Raising financial resources for required conducting various social responsibility programmes of blood donation successfully.
- Efforts are also made to make the blood donation services viable through Red Cross Society and other support organisations
- Support from NGOs/support organisations
