He also told that as an entrepreneur one should accept challenges and never back step in critical situations. He emphasized that a person should be always value based and revenue based, then the things will be worked out in a positive way. He concluded mentioning that the most

On 16th February 2018, Students of BBA I (BA) visited Bass Orphan Home along with their Class Incharge Ms.Smriti Nagaria as part of their JSR (Joseph's Social Responsibility) activity. Bass Orphan Home is located at Osmangunj, JamBagh, Hyderabad which presently has 30 children aged between 6 – 12 years under their rolls. They have a very disciplined and curricular activities in sending them to school that helps the children to grow in all aspects of life. Our students assembled at Bas Orphan Home at 9.30 am and the children welcomed us with a warm handshake as soon as we arrived at their premises.. The visit started by invoking God's blessing with a prayer song "As the Deer Pants" at 10.00 am.

A series of games and competitions were conducted for the children of the home the 1st one being a 'Colouring Competition'. Papers were distributed by us to the children along with crayons, they were given 15 minutes of time to colour the picture on the sheet provided to them. The winner of the 1st Prize was Chaitanya, followed by Hari and Karan in the 2nd and 3rd places respectively. At 10.30 the game '7 Up' was played in which the children had sit in a circle and call out numbers from one onwards. The trick was that on the multiples of 5 the children had to clap instead of calling out the number, those who called out the number instead of clapping were disqualified. Darshan won the 1st Prize , Suresh and Sai kumar won the 2nd and 3rd position.

Mr.Radha Krishna, the Organization Founder and President gave a short speech about the orphanage and the activities carried out by them . At 11.00 am Vanshika Loya of BBA I (BA) showcased her talent of singing as a mean of entertainment for the children, inspired by her talent the children of the Home also showcased their talent in 'Yoga' by doing different asana they learnt. Our students danced on various songs played along with the kids. There was another talent showcase done by the Himanshu and Sandesh by singing and playing the guitar which was very much liked by the children.. This enlightened the children even more and they joined in, singing their favourite songs.

At 12.10 pm another game called '1,2,3,4' was conducted for the children. Here each number was given an action to be carried out. Number 1 was to put their hand up in the air, number 2 was to clap their hands, number 3 was to dab and number 4 was to put their hand on the ground. All the children sat on the floor with our students and played with joy. Siva Kumar,

The Prizes were distributed to the winners of the games – Painting Set, Blow Pen Set and Pencil Box Set was given to the First, Second and Third Prize Winners.. This was followed by giving all the children a mug and a packet of biscuits as a goodie.

Bass Orphan Home Staff, children along with the students of BBA I (BA) light candles and observed 2 minutes of silence as a tribute to the soldiers who died in the unfortunate incident at Pulwana Blast in Kashmir on 14th February 2019 followed by singing some patriotic songs in their remembrance.

Lunch was served at 2.00 pm which was sponsored by our students followed with ice-cream. The children were very sportive and attentive throughout the visit. We later had a conversation with Ms.Suzie where she inspired us with her story. She told us that she is an aesthete and wants to grow a farm. She also told that she is now shifting from stock market to real estate as the returns are not favourable these days. She was an inspiring woman who taught us that even though life can be hard, we can still make the best out of it despite the circumstances. We are honoured to have met a person like her.

A one hour session on abroad education was conducted by St. Josephs Degree & PG College, Extended campus on 4th December 2018. The session was conducted for BBA, BBA IT & BBA BA III year students and hosted by Dr. Vandana Samba.

The resource person for the session was Dr Fedy Fedel from France. It was an informative session which brought to light the opportunities available for students by pursuing Bachelors and Masters Degree in France, especially in "The American Business School of Paris".

The key outcomes of the session were that there are around 14000+ colleges available in the France to pursue. Most of the colleges offer admission even without an IELTS exam and the basic requirement is a good academic record with Basic English knowledge.

Objectives of American Business School

- To train students with all the requirements of the Industry.

Placements opportunities available in

- Amazon
- Monoprix
- Dell

The resource person explained clearly each and every step that a student must go through to get an admission in the French Universities.

- The first step is the process of applying for the colleges (The requirements here are a good academic record with or without an IELTS certificate)

ST. JOSEPH'S DEGREE & PG COLLEGE

(EXTENDED CAMPUS)

- Then the process of applying for a Visa. Unlike the US Visa process, here the procedure is much simpler; the embassy will provide the students with all the help they require.
- Then the fee and scholarship procedure- Scholarship is also provided for students which are around 600 to 700 Euros.
- The total admission fee for the course is around 7.5 Lakhs in Indian Rupees, which is very attractive and reasonable.
- There is opportunity of working part time which will facilitate more benefits to students.
- The last and most important part is getting a job abroad. The students are allowed to stay abroad for 2 years after their education, on a student visa which is sufficient time for them to get a respectable job. (Thanks to the MOU signed between India and France in the field of education).
- The degree also helps students in working with French companies in India, Making it feasible for students to return to their home county, with the confidence that their future is secure.

All in all it was a very interesting and informative session which was enjoyed by all the students.

After the session the French embassy people had half hour discussion with the Principal along with HoD and Dean Academics regarding the academic exchange programmes.

Two models were suggested by them:

1. Integrating one semester with the American Business School so that the students studyt one semester in Paris(academic exchange – twinning programme)
2. Having an MOU to send UG students after their BBA course to American Business School for one year study so that they get two degrees one UG with the required credits and PG diploma.

The college decided to explore the possibilities in the future

The IMS Institute is known for its outstanding coaching in Entrance exams like CAT,XAT,GMAT,GRE,MAT and many more. IMS conducted an career guidance session for UG second year students.

Most of the undergraduate students are confused about whether to work or complete an MBA right after graduation. Every individual has a different goal in their lives but they need proper guidance.

The IMS has come up with something called The Career Venn.

When only 2 of these factors collide we don't achieve success. We need all the three to succeed in our career.

How does an MBA help?

MBA helps to Kickstart the career, Change the career direction, Accelerate career growth and Set up own business.

Role of MBA in an Organisation

ST. JOSEPH'S DEGREE & PG COLLEGE

(EXTENDED CAMPUS)

Autonomous - Affiliated to Osmania University

The main role of an MBA in an organisation is to maximize the profits by increasing revenues and optimizing costs. There are specializations which help to get placed in the respective jobs like Marketing, Operations, Finance, HR.

How to decide

The IMS suggested the students to first decide on the B-School they want to join and take relevant tests. However, the question still persists when to do it. They advised that if the students decide to work, the quality of the work will be judged along with the experience during the time of intake. The freshers are taken into consideration based on the score of their CAT score (India). There are various tests to get into B-schools in India and when combined, test on English and Mathematics.

How to prepare

The IMS offers guaranteed programs when dissatisfied the students can attend the training session again free of cost or they get their money back. Their pamphlets were distributed and students were asked to register if interested.

Students Feedback

The session was fruitful. Most of the students now have an idea of how to choose their career path. We thank the members of IMS who took their time in addressing the students and our principal Rev.Fr.Dr.D Sunder Reddy, Dean Academics, HOD and the faculty for arranging the session.

The Mahindra Pride School is a flagship Corporate Social Responsibility Livelihood program of the Mahindra Group (fully implemented by Naandi Foundation) is a flagship Corporate Social Responsibility Livelihood program that provides free of cost vocational skill building training to the underprivileged youth and makes them employable for the industry.

The Mahindra Pride team strongly believes that basic education is not enough when students step out into the world. It is imperative for young adults to be equipped with essential life skills and soft skills. While certain skills may be acquired through everyday experience in the home, school or college, they are not sufficient to adequately equip the youth in today's complex society. In the last 10 years, the 8 Mahindra Pride Schools across India have trained, transformed and placed over 23,000 young people so far, in good jobs.

TASK and Mahindra Pride Classrooms have launched to impart free ITES training to the youth. The duration of the course is for 45 days and will be conducted in a premise decided by TASK and out of which, last 7 days the students will be trained in Interview Skills and attend Mock Interviews in Mahindra Pride School Hyderabad. After that they will be sent for placements interviews for jobs only in Hyderabad.

This event in many ways was a tribute to a show that has managed to entertain billions over the last two and a half decades and is touted as the finest SITCOM of all time. Cashing in on the incredible popularity of the 90s most iconic TV show "F.R.I.E.N.D.S", we organized an inquisition in our annual fest "JO'ZAPHIRE 2K19".

One of the main purposes of this informal event was to send all the contestants on a nostalgic drive on the memory lane, which we managed quite brilliantly as most participants returned home with a smile.

We conducted two rounds for the contestants who came in from various colleges across the "City of Pearls". The first round was a written test, where the participants had to answer 20 questions in 20 minutes. The questions included some background information and iconic dialogues about the show. This round started at 11.00 AM. And the entire participants were divided into two slots.

The second and final round was a "Question and Answer" session with the assistance of a PPT. It was organized using the "Bounce and Pounce System" and a total of 12 teams managed to reach the final round among the 16 teams that participated.

After the event and calculations of the scores the top scorers were declared. Participation certificates were distributed then and there itself. In the valedictory session the top three scorers were awarded with the mementos.

On the whole the event – Unagi was successful with a very good crowd. It was all fun and it paved path to nostalgia because of the PPT which was prepared by Anurag from BBA – III B The feedback forms were given to the participants to fill.

This was all possible because of meticulous planning and co – operation between coordinator's and Volunteers from different classes.
