NAME AND DESIGNATION OF RESOURCE PERSON:

Mr. Harish Chandar, Founder / Director at Indiatech Pvt Ltd.,

A BRIEF REPORT:

The session focused on how the social networking accounts of an individual user are prone to hacking and how to safeguard our data from being hacked. The speaker tried to show some examples on how hackers try to grab sensitive information from the users devices, their browsing data and use it unauthorized. He took appropriate examples on WhatsApp, Facebook, ATM and Petrol tampering that created interest and awareness in students.

The entire session was very interactive with so many questions from students regarding hacking, routing, credit card frauds, and fraudulent advertisements and so on. The speaker was very patient to take questions from the students and he provided satisfactory answers to them.

The main objective of the department in organizing this event was to give an insight to students on the courses available in the field of hacking and how to proceed in this regard.
