## **ANNUAL REPORT ON**

### **EIKONA**

Date:

Photography can only represent the present. Once photographed, the subject becomes the part of the past.”

Photography is the simultaneous recognition in a fraction of a second of the significance of an event. To photograph is to hold one's breath, when all faculties converge to capture fleeting reality. It's at that precise moment that mastering an image becomes a great physical and intellectual joy.

The photography club is one of the most active clubs of our college. Every year new members join the club. Members are selected on the basis of their photography skills. The purpose of this club is to polish the photography skills of the students. Members are provided with college cameras to capture fleeting moments of passion, competition and joy to create memories that will be caught by the students forever.

The photography Club was inaugurated by Rev **FR. KINGSTON**. In 2018 the photography club has been formed named Eikona for the promotion of the photographers by the BA Mass Communication students.

The mission of the Photography Club is to provide a supportive environment for interested photography students to share their creativity, knowledge and passion for photography while attending during the college. The club will hold regular meetings and discussions and organize events such as; photo-walks, field trips, museum and gallery visits, and lectures and workshops by members who will also explore the possible opportunities for photography projects in collaboration with other campus departments, organize and explore the possibilities of exhibitions on and off campus.
