ANNEXURE

Question No. 2 (a)

In a small survey with 20 shoppers in in a shopping mall located in Hyderabad, the following questions (to elicit responses regarding shopper perception of in-store lighting, assortment and employees in stores; all 5-point Likert scales) were administered:

	ographic Variables:					
	Group : 15-20 Years [] 20-2	nale [] 25 Years []	25-	-30 Years []		30-35
Years Empl	s [] 35-40 Years [] oyment Status : Govt. Emple	ovee []	Private Em	plovee []]	Entrepreneur	[]
S. No	Statement	5- Strongly Agree	4- Agree	3-Neutral	2- Disagree	1- Strongly Disagree
A. Li	ghting					<u> </u>
1	The store is well- lit.					
2	The store is correctly-lit (Neither too bright nor dull).					
3	Lighting in the store is pleasant.					
4	Lighting in the store was awful					
B. As	sortment					
1	The store has a wide variety of products.					
2	The store has many brands in most of the product categories.					
3	The store has different price ranges in different products.					
4	The store has amazing variety.					
C. En	nployees					
1	The store had knowledgeable employees					
2	The store had friendly employees					
3	The store had helpful employees					
By m	sing the given Questionnaire, create	the detect	in the SD	SS Applicatio	n with your	own data

By using the given Questionnaire, create the dataset in the SPSS Application with your own data (responses) of each variable and calculate the following:

(i) Mean and Standard Deviation

(ii) Bar Chart

Write down the step-by-step procedure of SPSS Analysis for all calculations.

Question No. 2 (b)

In a small survey with 20 shoppers in in a shopping mall located in Hyderabad, the following questions (to elicit responses regarding shopper perception of in-store lighting, assortment and employees in stores; all 5-point Likert scales) were administered:

	ographic Variables:						
Gend		Female					
Age (1 5						
Empl	35-40 Years [] oyment Status : Govt. Emplo	oyee []	Private En	nployee []	Entrepreneur	[]	
S. No	Statement	5- Strongly Agree	4- Agree	3-Neutral	2- Disagree	1- Strongly Disagree	
A. Lig	ghting			•		0	
1	The store is well- lit.						
2	The store is correctly-lit (Neither too bright nor dull).						
3	Lighting in the store is pleasant.						
4	Lighting in the store was awful						
B. As	sortment						
1	The store has a wide variety of products.						
2	The store has many brands in most of the product categories.						
3	The store has different price ranges in different products.						
4	The store has amazing variety.						
C. En	nployees						
1	The store had knowledgeable employees						
2	The store had friendly employees						
3	The store had helpful employees						

By using the given Questionnaire, create the dataset in the SPSS Application with your own data (responses) of each variable and using frequencies, calculate the following for the variables Lighting, Assortment and Employees:

- i. Measures of Central Tendency (Mean, Median and Mode)
- ii. Measures of Dispersion (Standard Deviation, Variance, Range)
- iii. Skewness and Kurtosis

Write down the step-by-step procedure of SPSS Analysis for all calculations.

Question No. 3 (b)

A well-known automobile (two-wheeler) company is planning to manufacture electric vehicles for the first of its kind. Before taking a decision on production of electric vehicles, the company management team wants to know the customers' perceptions and preferences of their existing vehicles. With this regard, the employers planned to conduct a survey among its customers about their satisfaction levels in three areas namely "model/style of the vehicles", "cost-effectiveness of the vehicles", and "Life or Duration of the Vehicles". Initially, a pilot study was planned among selected 20 customers and made the analysis. Later, based on the statistical results of pilot study, the employers are planning to move forward with the original survey.

Here, the data collected from the 20 customers is mentioned below. You are asked to create the data set given below in the SPSS Application and find out the mean and standard deviation of the data. Also, represent the data using Histogram.

Respondent	Gender	Income	Model	Cost	Vehicle
No.	Genuer	(In Rs. 000)	Widdei	Effectiveness	Performance
1	Male	15	2018	Medium Cost	High
2	Male	16	2018	Low Cost	Moderate
3	Male	12	2018	High Cost	High
4	Male	18	2018	Low Cost	Moderate
5	Female	12	2019	Medium Cost	Moderate
6	Female	12	2019	Medium Cost	Average
7	Female	10	2019	High Cost	High
8	Female	18	2021	Low Cost	Moderate
9	Male	10	2021	Medium Cost	Moderate
10	Female	11	2021	Medium Cost	Average
11	Female	11	2020	Medium Cost	High
12	Female	16	2020	Low Cost	Moderate
13	Male	16	2021	High Cost	High
14	Female	17	2020	Low Cost	Average
15	Female	15	2021	Medium Cost	High
16	Female	14	2021	Low Cost	Moderate
17	Male	15	2019	High Cost	Average
18	Female	16	2021	Low Cost	Moderate
19	Male	18	2020	Medium Cost	Moderate
20	Male	20	2021	Low Cost	Average

Tip: You can convert the "Text" in the variables into coding based on the given values. **Write down the step-by-step procedure of SPSS Analysis for all calculations. NOTE:** Save the SPSS Data editor (.sav) file and SPSS Output Viewer (.spv) file with your ROLL NUMBER as FILE NAME. (Ex. 121420672001)

research support to another department that delivers behavioral health services to youth. Kelly supports her staff and is very organized; however, she often takes a very black and white view of issues. Upper level leadership values Kelly's latest research on the therapeutic division's services. Kelly is very motivated and driven and expects the same from her staff. Manager 2: Linda has a strong background in social science research and evaluation. She manages staff that work on different projects within the agency. She is known as a problem solver and is extremely supportive of her staff. She is very organized and has a wealth of experience in evaluation of family services. Linda is very capable and can sometimes take on too much. The managers are sensing that staff are becoming overworked as everyone takes on increased responsibilities due to high staff turnover. Staff have also mentioned that Laura's "glass half-empty" conversation style leaves them feeling dejected. In addition, Laura has not shared budgets with her managers, so they are having difficulty appropriately allocating work to staff. Laura said she has not received sufficient information from the finance department to complete the budgets. The finance department said they have sent her all the information flux tave available. As staff become distressed, the managers are becoming frustrated. They feel like they are unable to advocate for their staff or solve problems without key information like the departmental budget. 1) How can Laura most effectively use both management and leadership skills in her role as associate director? 2) What advice would you give Laura on improving her leadership skills and to the managers on improving their management skills? OR Robert.j.Eaton has distinguished himself as the president of General Motors Europe. He then was recruited to succeed Lee A.lacocca as chief executive of Chrysler Corp.At the outset, Eaton was confident the would be successful. the needom to enouse now to achieve the objectives. Eaton's prefetence for the team-	
b. leader management style had helped him attract and keep a high-caliber staff in Europe.	BL5
b. The leader management style had helped min attract and keep a high-canber start in Europe. 5 He knew how-to pump-up profits in an automotive company that was already making a	DLJ
comeback.	
Eaton faced a serious challenge in the spring of 1995 when investor Kirk Kerkorian	
teamed with Lee Lacocca in an attempt to buy a controlling interest in Chrysler. The deal would have been close to a 23-billion-dollar takeover. Included in Kerkorian's	
takeover strategy was a pain to finance part of the takeover with a 7.5-billion-dollar	
cash reserve that Chrysler had on hand. When Kerkorian first announced his intentions,	
Eaton attempted to placate him by raising Chrysler's dividend. He also agreed to start a	
be one-billion-dollar stock-buy-back program designed to increase the price of Chrysler	
shares. However, he decided to fight the takeover. One of his arguments for opposing	
the bid was that Chrysler needed a huge reserve to cope with the uncertainties in the	
automobile business.	
 Bring out all the leadership roles you have noticed in the case. Cive conclusion for the case based on your Percention. 	
2) Give conclusion for the case based on your Perception.

	Compulsory Question - (Unit-1 / Unit-2) (1 QX 5 Marks= 5 Mark	ks)	
8 a.	In the years since it was founded in 1973, the Sacramento Natural Foods Co-op has blossomed into a \$15 million business. With 7,000 member-owners, it is the second-largest single-store grocery cooperative in the nation in terms of sales and volume. However, when a vocal minority of its democratic membership quashed plans to expand to a second store, the business was at a crossroads. "There was no way to move forward until we could build consensus around a plan for the future of this organization," said Paul Cultrera, general manager. "Things were so bad," said then board of directors member Peter Keat, "that we literally felt paralyzed as an organization." With tensions running high, Cultrera interviewed <u>Eric Douglas</u> of Leading Resources Inc. (LRI). Cultrera was impressed by Douglas' track record for managing change and gaining consensus within large organizations. "I was looking for someone with really good communication skills," Cultrera said. "Someone skilled at working with diverse constituencies." D2K: Establishing Trust as a Foundation for Long-term Growth 1) Write the summary of what is understood by you in the Case.	5	BL4
	(1) while the summary of what is understood by you in the Case. OR		
b.	Using input from the focus groups, LRI drafted a survey with 50 questions about values and visions and distributed it to all 7,000 Co-op member-owners. LRI's analysis of the 1,645 returned surveys confirmed that pricing was most important to members. Member-owners were evenly divided on the question of whether to expand to additional locations. A third issue that came into focus from the survey was the 5% member-owner discount: Owners did not want to give it up, even if it meant they paid higher prices in the store. Stage 3: Moving Beyond Conflict to Strategy With the survey data in hand, a group of 25 people – comprised of 15 member-owners, seven members of the Board of Directors and three members of management – began working together as the D2K Planning Team under the guidance of LRI consultants. Within a few weeks, the team had defined the <u>purpose</u> and values – what Douglas calls the "strategic foundation." The team then faced the question of vision – and the deep conflict over whether or not the Co-op should expand to a second store. As a first step, Douglas broke the drafting committee into two teams to generate deeper discussion. The resulting dialogue between the teams ultimately led to a draft vision was based on a philosophy of inclusion," said Keat who was a Planning Team member. "The Co-op offers something very special in the quality of its products, its support for local farmers, and its reliance on cooperative economic principles. Our vision again and again within the Planning Team," Douglas said. As they grew more comfortable, team members used a combination of brainstorming exercises, management input and survey feedback to develop seven key goals to achieve the vision. LRI consultants carefully translated their decisions into a draft strategic plan 1) If you find a problem in the case, Suggest the measures to resolve the problems.		BL5

	Identify the elements of Launch mix. 2) Suggest how would you position your product in the market. OR		
b.	 Praveen Kumar is graduated from IIM Bangalore invested a small amount of capital to start manufacturing and selling a new detergent under the Brand name "SHINE" hailing from a middle-class family himself, Praveen Kumar decided to price his detergent much lower than other detergents available in the market at that time, his pricing strategy paid rich dividends and "SHINE" became instant success. Using his new acquired financial strength, Praveen Kumar developed a premium quality Bathing soap with a unique colour and perfume combination. Although the manufacturing cost of this soap was high, Praveen Kumar priced it substantially lower to comparable products in the market by maintaining low profit margin. 1) Suggest an appropriate marketing plan to Praveen Kumar. 2) Do you feel Praveen Kumar has committed a pricing mistake this time? Give reasons for your answer. 	5	BL6
