“Design your future in Entrepreneurship” – summit

Theme: Online seminar on Entrepreneurship insights

- *Outcome: Students learned what takes to be a successful entrepreneur.*
- *Date: 1st December, 2021.*
- *Time: 11.30AM*
- *Venue: Chapel Hall*
- *Target Audience: Students of 1st, 2nd and 3rd year of Bcom and BBA.*
- *Faculty coordinator :Mr. Martin Mysa, Ms. M Prashanthi*

Student coordinators: Kenneth A Jose(BCom), Disha banger (BCom), Uppalasindhuja(BBA), Rahul (B.Com), Srikanth (B.Com), Kushal Kothari (B.Com)

In this webinar, various students across various courses and years interested in or aspiring to become young entrepreneurs had attended the session online through the Google Meet platform. While students had the option to join the meeting by using the meet link, most of them also had the option to attend the Webinar physically in the Chapel Hall in the main campus and Vianney Hall in the extended campus by the means of projectors and speakers.

The session began when **Akshay Kila**, Manager, Perfect group of companies gave his insights on what qualities should an entrepreneur possess and how being a B. Com or BBA student or being in the commerce field separates you from others and gives an added advantage, and to utilize that added advantage, one must work on developing those specific set of skills.

The students were then addressed by Deep Shah, CEO of Arihant Enterprises and Dot printers. Being a part of a family business, Deep gave pointers on what all should a person do or have if he/she is to start a business or to join a family business in the coming future. One of those points was that

one should join the business as early as they can to understand it and gain valuable experience that can't be gained from any type of job and which would turn out to be very fruitful in the ventures they eventually pursue.

The Session was then Continued by Swarnam Gupta, Creative Director of Paridhan, who based on her experience, shared her views on how what a person eventually wants to do in life (either work for someone else or work for themselves) can positively impact the big decisions that they have to take in the course of one's life.

The session was then taken over by Professor Samish Dalal, Assistant Professor, S P Jain School of Global Management who shared his insights on that day's point of discussion by explaining and citing many interesting examples about 3

submissions that everyone should keep in mind in their life. The first submission was to always begin with the end in mind. The second submission was to never do things alone, always do it with someone else to learn from what they know and the final submission was to never engage in taking blind bets whenever one's stuck in the crossroads of life and to always have a mentor in such situations.

Naren Thakkar, Director, Fixoboard then addressed the students with his insights and advice such as one should be always prepared to handle unforeseen circumstances and to be good at entrepreneurship, one should find a passion, something that they are passionate about, and find people that complement their strengths.

Last but not least was **Rishi Dedhia**, founder, Credence Advisors who by deriving from his experience, gave some valuable advice like if a person gets inducted into a business or is a part of a team, one should not challenge the status quo and try to address the problem and work towards the solution instead and that one should never shy away from asking for help and to own a business or it to understand it well, one must get dirty or get to the ground, i.e., get the experience of every activity in the business to truly understand it which can never be obtained from bookish knowledge.

The session was finally concluded after the Q&A where the students could ask questions and get their concerns answered
