DATE & TIME 3rd March 2023, 1:00 PM TO 2:15 PM

VENUE: Room no 508, 5th floor.

Name of The Department: Physics &Electronics

Head of the Department: Dr.M. Sravan Kumar

Total No. of Participants: 28

Faculty Co-ordinators: Dr. M. Sravan Kumar

Student Co-ordinators: Mr. SANJEV KUMAR &Mr. DINESH KUMAR

Target Audience: BSc MPCs –III YEAR -STUDENTS

A BRIEF REPORT:

The session started at around 01:10 PM by introducing the Alumni student. The alumnus was introduced by the faculty coordinator Dr. M. Sravan Kumar.

Harish Kumar, student at St Joseph's degree & PG College, pursued his degree in BSc MPCs from 2016 – 2019, was very friendly, energetic and interactive with the students and he motivated the students to work hard to achieve greater heights.

A few key things he discussed in the session include the introduction about the PEGA, Amazon Web Service, and SAP and about the career of the software developer.

Software engineering is the systematic approach to designing, developing, testing and maintaining software applications. It involves the use of different software methodologies, tools and techniques to ensure the creation of high quality, reliable and efficient software systems.
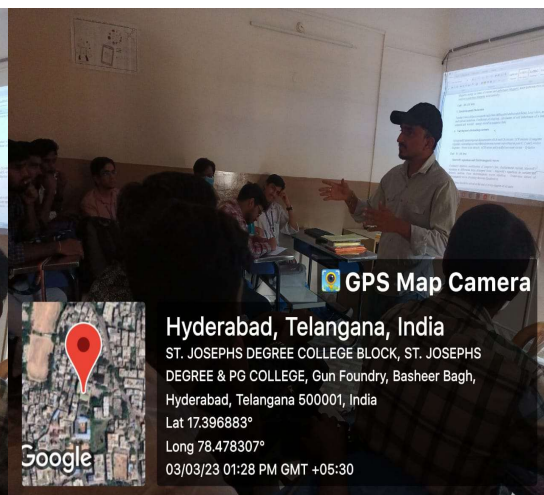

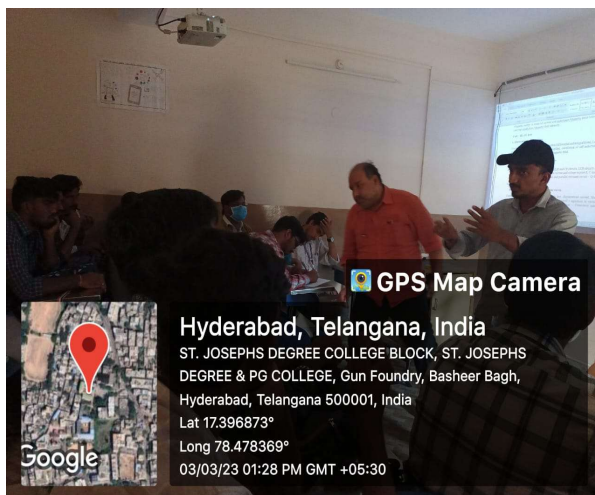

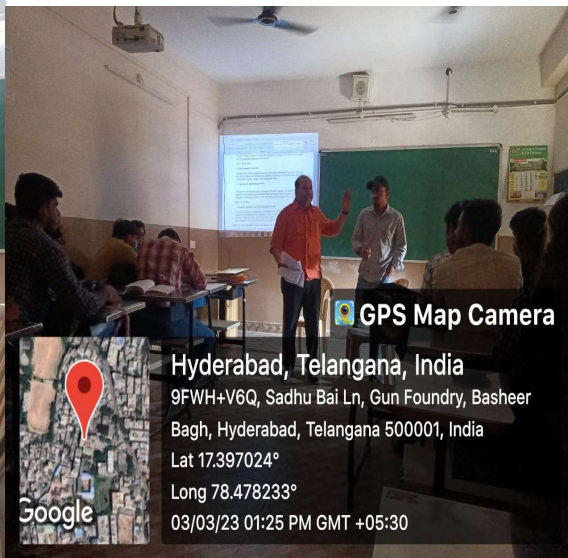

As described by the alumni," software engineering plays a crucial role in present and the future generations of corporate world."
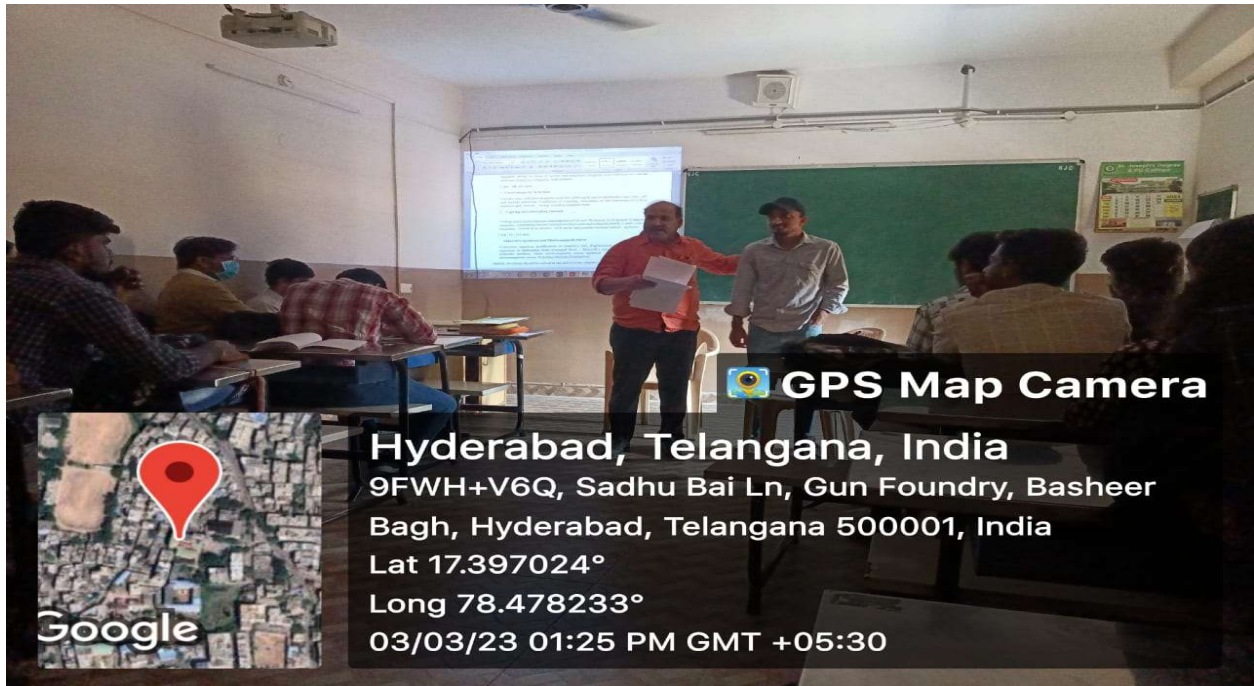

He even guided the students on how to opt for further studies in abroad. He even discussed about the problems and struggles faced by the students after completing the under graduation searching for proper jobs and gaining experiences.

Along with guiding the students on further studies, he even explained and suggested many special certificate courses like SAP, ASW and PEGA etc.… to complete before going for jobs.

The session was open for Q&A, where students asked questions related to different jobs to do after the completion of under graduation, struggles faced by the rookie developers, years/months required to complete the certificate course, etc. Marking the end with a vote of thanks by the faculty coordinator Dr. M. Sravan Kumar.

OUTCOME OF THE EVENT: Gained knowledge about the insights and experience of the alumni after their under graduation.
