

## ST. JOSEPH'S DEGREE & PG COLLEGE

(Autonomous), Affiliated to Osmania University

Re-accredited by NAAC (3<sup>rd</sup> Cycle) with B<sup>++</sup>

King Koti Road, Hyderabad

### Department of Computer Science

#### General Information

Type of the Activity	2 Days Event on Chandrayaan – 3 Launch
Title of the Activity	Find the Chandrayaan
Date	13 <sup>th</sup> and 14 <sup>th</sup> July 2023
Time	1:30 PM to 4:00 PM
Venue	Joseph's Hall
Collaboration/Sponsor(if any)	---
Url and other social media link(You tube, twitter and facebook)	

#### Speaker

Name	Mrs. Kiran Jyothi
Title/Position	Head, Assistant professor Department of computer science St. Joseph's Degree & PG College
Organization	Mission objectives of Chandrayan 3
Title of the presentation	

Name	Mr.M.Satyanarayana
Title/Position	Assistant professor Department of Mathematics St. Joseph's Degree & PG College
Organization	Changes and improvements of Chandrayan 3
Title of the presentation	

Name	Mrs. Sailaja Raj
Title/Position	Assistant professor Department of Computer Science St. Joseph's Degree & PG College
Organization	Technology in Chandrayan 3
Title of the presentation	

#### Participants Profile

Type of Participants	Students
No.of Participants	240

**Synopsis of the Activity (Description)**

Highlights of the Activity

- Illustrating the Purpose of Launch: Provide insights on Chandrayaan and the reasons for its launch. The technology used, and overcoming past failures.
- Progressive Quiz Elimination Challenge: The teams underwent comprehensive questioning comprising diverse subjects concerning science
- Exploration and Leads: Teams embarked on a quest to discover hidden hints around the college premises to secure qualification in the subsequent round
- Sharing Knowledge: Finalists were given the opportunity to showcase their knowledge on the Chandrayaan launch, its purpose and highlight key factors to previous failures.
- Watching it Live: The launch of the rocket holding Chandrayaan – 3, LMV3-M4 was seen live.

Key Takeaways

- Understanding the purpose of the launch.
- Gaining insights on the technology used.

Summary of the Event

Communication and Team-work: Work together as a team to discover answers to questions and face challenges together.

Information Exchange: Using presentation tools to showcase insights on Chandrayaan – 3 and previous satellites to compare technology and reiterate the purpose of the latest lunar mission launch.

Follow-up plan

## Department of Computer Science Notice

It is hereby informed that the POWER BYTES CLUB of Department of Computer Science is organizing an event titled "FIND THE CHANDRAYAN" commemorating the launch of CHANDRAYAN-3 on 13 & 14 July, 2023 which consists of the following:

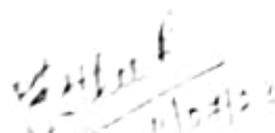

Day - 1: Elimination Round, Treasure Hunt and Assembling the parts

Day - 2: Telecast of the launch & Knowledge sharing

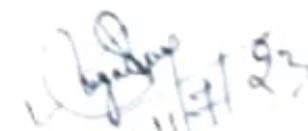

Interested students are asked to contact respective computer science course faculty and student coordinators to confirm your participation.

Kindly note the following:

1. It is mandatory to have 4 members in a team
2. Students can form a team from any stream
3. Certificates would be issued

## Report on Find the Chandrayaan

Find the Chandrayaan event was conducted on 13<sup>th</sup> and 14<sup>th</sup> July, 2023 in the Joseph's Hall, main campus, St. Joseph's Degree & PG College. The Computer Science department of the college, along with the PowerBytes club conducted the event for students from all the streams.

Chandrayaan-3 is a follow-on mission to Chandrayaan-2 to demonstrate end-to-end capability in safe landing and roving on the lunar surface. It consists of Lander and Rover configuration. It was launched by LVM3 from SDSC SHAR, Sriharikota. The propulsion module will carry the lander and rover configuration till 100 km lunar orbit. The propulsion module has Spectro-polarimetry of Habitable Planet Earth (SHAPE) payload to study the spectral and Polari metric measurements of Earth from the lunar orbit.

Chandrayaan-3 consists of an indigenous Lander module (LM), Propulsion module (PM) and a Rover with an objective of developing and demonstrating new technologies required for Inter planetary missions. The Lander will have the capability to soft land at a specified lunar site and deploy the Rover which will carry out in-situ chemical analysis of the lunar surface during the course of its mobility. The Lander and the Rover have scientific payloads to carry out experiments on the lunar surface. The main function of PM is to carry the LM from launch vehicle injection till final lunar 100 km circular polar orbit and separate the LM from PM. Apart from this, the Propulsion Module also has one scientific payload as a value addition which will be operated post separation of Lander Module. The launcher identified for Chandrayaan-3 is GSLV-Mk3 which will place the integrated module in an Elliptic Parking Orbit (EPO) of size  $\sim 170 \times 36500$  km.

**Keywords:** Safe landing, on-site experiments, rover operations

The PowerBytes club conducted the event "Find the Chandrayaan" to shed more light on the current ongoing in the science world, and the many advances that India has made in the field of space. The main objective of the event was to enable the students to understand the technology used in the Chandrayaan missions and the future endeavors of ISRO.

This participants in the event were enthusiastic and highly motivated to learn more about the current events happening in the field of science and ISRO.
