| Synopsis of the Activity (Description) | | |
|--|---|--|
| Highlights of the Activity | It was a great session with Dr. Swathi Kumari where students could grab some practical knowledge on emotions through activities. She gave a clear definition of emotional balance, self-awareness, Self-regulation, Motivation, Empathy and social skills. It was a heart touching session where students could go down the memory lane from there presence in the mother womb to the present. Students could know the importance of parents, teachers, friends and family in their life. Emotions are something internal and cannot be defined well but we can feel it well. Emotional intelligence plays a key role. Person having an EI between 56 to 75 is considered to be emotionally stable. EI between 36 to 55 is considered to be a stage of improvement and below 35 is considered to be a caution level. These were the main inputs that students could gain from the session. This is the reason why human beings are considered to be social beings because of their emotions. | |
| Key Takeaways | Emotional Intelligence and well-being Self-awareness and self-control | |
| Summary of the | The session was very informative to the students as they could | |
| Activity | understand themselves and their emotional well-being. | |
