Additional Comments:

Practicality is missing

Overall it was Good

Better knowledge on getting a job is more necessary

Yes more practical knowledge the Radio monitor is not working new faculty who are actually interested in teaching should be there

Taking students to the media houses and teaching them practical knowledge

Timmings could be from 9 in the morning as it is really hard for the people who come from far away. The exam branch is way to slow, irresponsible and ignorer ..the staff can be changed. The parking area is very hard to cope up with one must wait for atleast 1 hour to get their vehicles , we must have good facilities for parking. Sometimes the issues of student is not heard or responded well.

Lab equipments can be improved and given full utilisation for students.

Helping every student in getting proper internships and jobs... And proper guide for those who want to pursue masters

Yes radio mixer not working more field trips to newspaper and radio stations please focus on practical skill development than bookish knowledge

I feel the college needs to improve in informing about things related to exam like related to the submission date of some certificates Xerox copy. They have to inform the students well in time without delaying.

Need more practical experience , field visits , how to use equipment teachers should tell.

Need more practicals in department

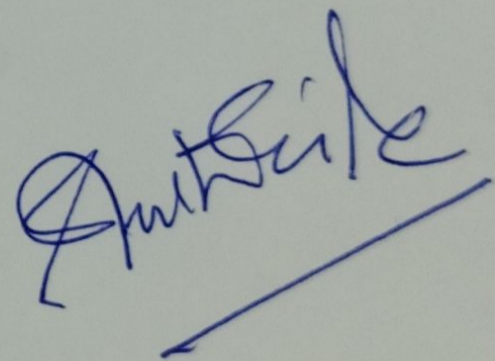

Our course is an excellent course and they way our teachers teach is also very helpful, the sessions are interactive.

Maybe the teachers should involve more into teaching than sharing the content over our mobile devices. Not that everyone does it but yeah it still happens. Sharing the content will be more helpful if once already taught.

And a friendly suggestion would be to also encourage students that stand in the fight that has a thin chance of winning or in other words maybe encourage students that do not follow the patterns of the world but are into investigating the hidden truths in a formal manner.

The college should come up with more challenging topics and push the students out of their comfort zones all while still maintaining a proper camaraderie.

There is always a chance for improvement
